Re: COVID 19 Update

Dear Valued Patient,

At Access Health Care Physicians, your health and safety remain our number one priority. We follow CDC guidelines for infection control and social distancing to protect our patients and our team members.

During your visit, you will see patients and team members wearing masks and other personal protective equipment as needed, and you will find a new patient experience that maximizes contactless processes. We are practicing social distancing with new office layouts, modifying schedules to include telehealth services, and controlling the flow of people in our office locations.

In addition, we use EPA approved disinfectants before and after patient interactions, and we conduct disinfection to the entire office on a regular basis.

These steps work together to ensure a pleasant, safe experience at Access Health Care Physicians. Thank you for allowing us to care for your healthcare needs. We look forward to seeing you soon.

Best Regards,
